

Choose the atmosphere before the slide.

Thirteen curated color systems for clients, designers, and AI agents.
Start with the mood, then match the palette to the story.

13 COLOR SYSTEMS

7 NAMED ROLES PER PALETTE

16:9 SLIDE CANVAS

Pick by mood, then match the story.

Every palette names its canvas, text, signal, depth, soft surface, and visual accents so the choice stays practical and easy to brief.

Dark and cinematic

Cinematic

Deep surfaces, teal signal, and warm ember for tension and release.

Cool and precise

Cobalt / Ocean / Ice / Mono

A clear starting point for evidence, products, and decisions.

Warm and human

Coral / Saffron / Copper / Sand

More warmth for brands, communities, craft, and change.

Natural and expressive

Forest / Mint / Plum / Violet

Distinctive color without losing a calm reading hierarchy.

03 / PALETTE

Cinematic

CINEMATIC

Deep navy, teal light, and ember orange for film-led storytelling and premium launches.

MOOD Night, tension, and warm release

USE IT FOR Film, premium launches, brand stories, and keynote moments

CANVAS #0B1020	TEXT #EDF4FF		DEPTH #1E9994	SOFT #183D4A	VISUAL A #173D70	VISUAL B #D86D49
--------------------------	------------------------	--	-------------------------	------------------------	----------------------------	----------------------------

PRESENTLAB / SAMPLE NARRATIVE

One clear claim gives the slide its shape.

Use the signal color for the decision, the soft tone for context, and the second visual color for emphasis.

SIGNAL **EVIDENCE** **ACTION**
